CPT_S 322 Project

<u>User Stories</u>:

U1) As a user, I want to navigate the site from the homepage so that I can see all the major site features. (unfinished from Sprint1). High Priority.

U2) As a user, I want to navigate the blog page so that I can read a blog post. High Priority.

U3) As a user, I want to navigate the forum page so the I can read a forum post. High Priority.

U4) As a user, I want to navigate to the scholarship page so that I can use a link to go to a scholarship site. High Priority.

U5) As a user, I want to navigate the web classes page so that I can use a link to go to a zoom meeting. High Priority.

U6) As a user, I want to go to my user profile so that I can use the dialogue box to edit my data. Medium Priority.

<u>Features</u>:

F1) Homepage with the links done and stable and usable in windows of multiple sizes. (unfinished from Sprint1). High Priority.

F2-F5) Working pages for the blog, forum, scholarship and web classes pages with working links and usable in windows of multiple sizes. High Priority.

F6) Working dialogue box to view and edit user data under options drop-down menu. Secure and edits only the logged in user's data. Medium Priority.

<u>Acceptance Criteria</u>:

A1) All major site features accessible from homepage, homepage is easy to navigate and read, homepage adjusts layout based on the window size. High Priority.

A2-A5) Major feature pages working and legible, all links working but not all database features, easy navigation between pages, page layout adjusts based on the window size. High Priority.

A6) User dialogue box appears when selecting user profile from the options drop-down menu, dialogue box scales and adjusts with window size, user can edit their data and save the edits, user can edit only their data, dialogue box closes on submit. Medium Priority.

Tests:

T1) Run homepage on various window sizes and test the links to the major features (unfinished from Sprint1) High Priority.

T2-T5) Run major feature pages in windows of various sizes and test all the links, except those tied to databases. High Priority.

T6) Open the User Profile Setting dialogue box from the options drop-down menu. Verify that the dialogue box adjusts size and layout with the window size. Edit the user data and submit. The dialogue box should close. Open the dialogue box again and confirm that the changes saved. Look at the database to be sure the correct user data changed. Medium Priority.
